

The Maxwell Centre for Analysis and Nonlinear PDEs
in collaboration with the
Oxford Centre for Nonlinear PDE

Second session of crash-courses in Analysis and Nonlinear PDEs

15 - 16 October 2009

Prof László Székelyhidi (Universität Bonn)

*Convex integration for isometric immersions
and the Euler equations*

Programme

We present the second lecture course in this series organised by the CANPDE. Prof Székelyhidi will deliver 3 two-hour instructional lectures aimed mainly at PhD students and young researchers. The course is open to anyone interested in the area. Please visit the website below for further details.

Venue Department of Mathematics, Heriot-Watt University
Colin Maclaurin Building, Edinburgh EH14 4AS, UK
